#### Full Day Visit with workshop

Our standard day package.

We provide a **Museum Tour** where students have the option to complete a trail. Younger visitors become exhibit explorers, searching for Ross the mouse and older visitors can take on the code breaker challenge. Trail sheets, clip boards and pencils will be provided. Following the Museum Tour, children will meet some ex-miners in our **Meet A Miner** session, who will talk them through what a day in the life of a miner was like. Aided by some drama and role play, students will experience learning through action, helping them formulate their own questions for an opportunity to ask questions at the end of the session.

After lunch, students will enjoy a **workshop** of choice from our extensive list to either support current learning or to provide an opportunity to experiment and investigate areas of STEM, create an artistic masterpiece, enjoy a drama and role play workshop or practice debating and formulating opinion.

Students will be hosted by ex-miners who encourage questions and will demonstrate objects and artefacts they once used.
